5 IVE STRAIGHT

3

THINK STRATEGY

Play a card and place a peg, or pick a card from the deck.

No talking to your team member, so where you place your peg has to **Say it ALL!**

The low numbered cards are most valuable, both **offensively** and **defensively**. Use them **strategically**.

First one to **five pegs** in a row, in any direction wins!

2

DEAL THE CARDS

Deal **4 cards** to each player.

Players may place a peg in the numbered square of their card or **HIGHER**.

Players may only have **4 cards** at one time.
